

Figure 10-10 shows the top view of the rotating platform. The dimensions are as follows:

- Outer square side length: 337.7
- Inner square side length: 220.0
- Central circular hole diameter: $\phi 137.0$
- Four mounting holes, each with a diameter of $\phi 13.0$.
- Distance between the centers of the four mounting holes: 169.2
- Distance from the center of the platform to the center of one mounting hole: 195.0
